How Technology works

03

- **Building the AI Model**
- **Data Synthesizing**
- **UX / UI**
- **Business Strategy and Pricing**
- **Licensing and Policies**
- **Fundrasing**

Flow of product development

PLANNING

- Conduct surveys/interviews with: Companies, End users, Experts in related fields
- Build basic prototyping
- Feedback

FUND RAISING

RESEARCH & DESIGN

- Design user experience (UX) and user interface (UI)
- Other companies, AI, API

DEVELOPMENT

- Build initial prototype
- Test and iterate based on feedback
- Develop functional MVP (Minimum Viable Product)

RELEASE & RESEARCH

- Get license and patent
- Examine the efficacy

Immediate next steps

PLANNING

- Conduct surveys/interviews with:
Companies, End users, Experts in related fields
- Build basic prototyping
- Feedback
